Installation Wizard for Visual C++ 6.0 Standard Edition

X

## Visual C++ 6.0 Standard Edition

The Visual C++ 6.0 Standard Edition Setup program will walk you through installing the applications and components you'll need to accomplish your programming tasks.

Use the Next button to proceed to the next screen. If you want to change something in a previous screen, click the Back button. You may cancel the installation at any time by clicking the Exit button.

If you would like to view the Visual C++ 6.0 Standard Edition Readme file, [click here](#).

# Microsoft Visual C++

With the Standard Edition of Microsoft Visual C++® 6.0, you can start your development quickly.

**Features Include:**

Write code faster with less errors with IntelliSense code completion.

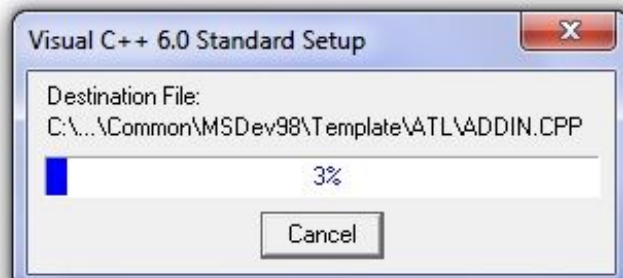

Dynamic ClassView updating that graphically and immediately displays changes you make.

Active Document Containment: don't code it, include it; add Microsoft Word, Microsoft Excel and other ActiveX® documents to your applications.

Wizards for application generation, control creation.

All the Web functionality of Internet Explorer 4.0, ready and waiting for your applications.

If you are developing Windows-based solutions, upgrade to Visual C++ 6.0, Professional Edition. Contact your local reseller for upgrade and discount information.

Win32 Console Application - Step 1 of 1

What kind of Console Application do you want to create?

- An empty project.
- A simple application.
- A "Hello, World!" application.
- An application that supports MFC.

< Back   Next >   Finish   Cancel

New Project Information

Win32 Console Application will create a new skeleton project with the following specifications:

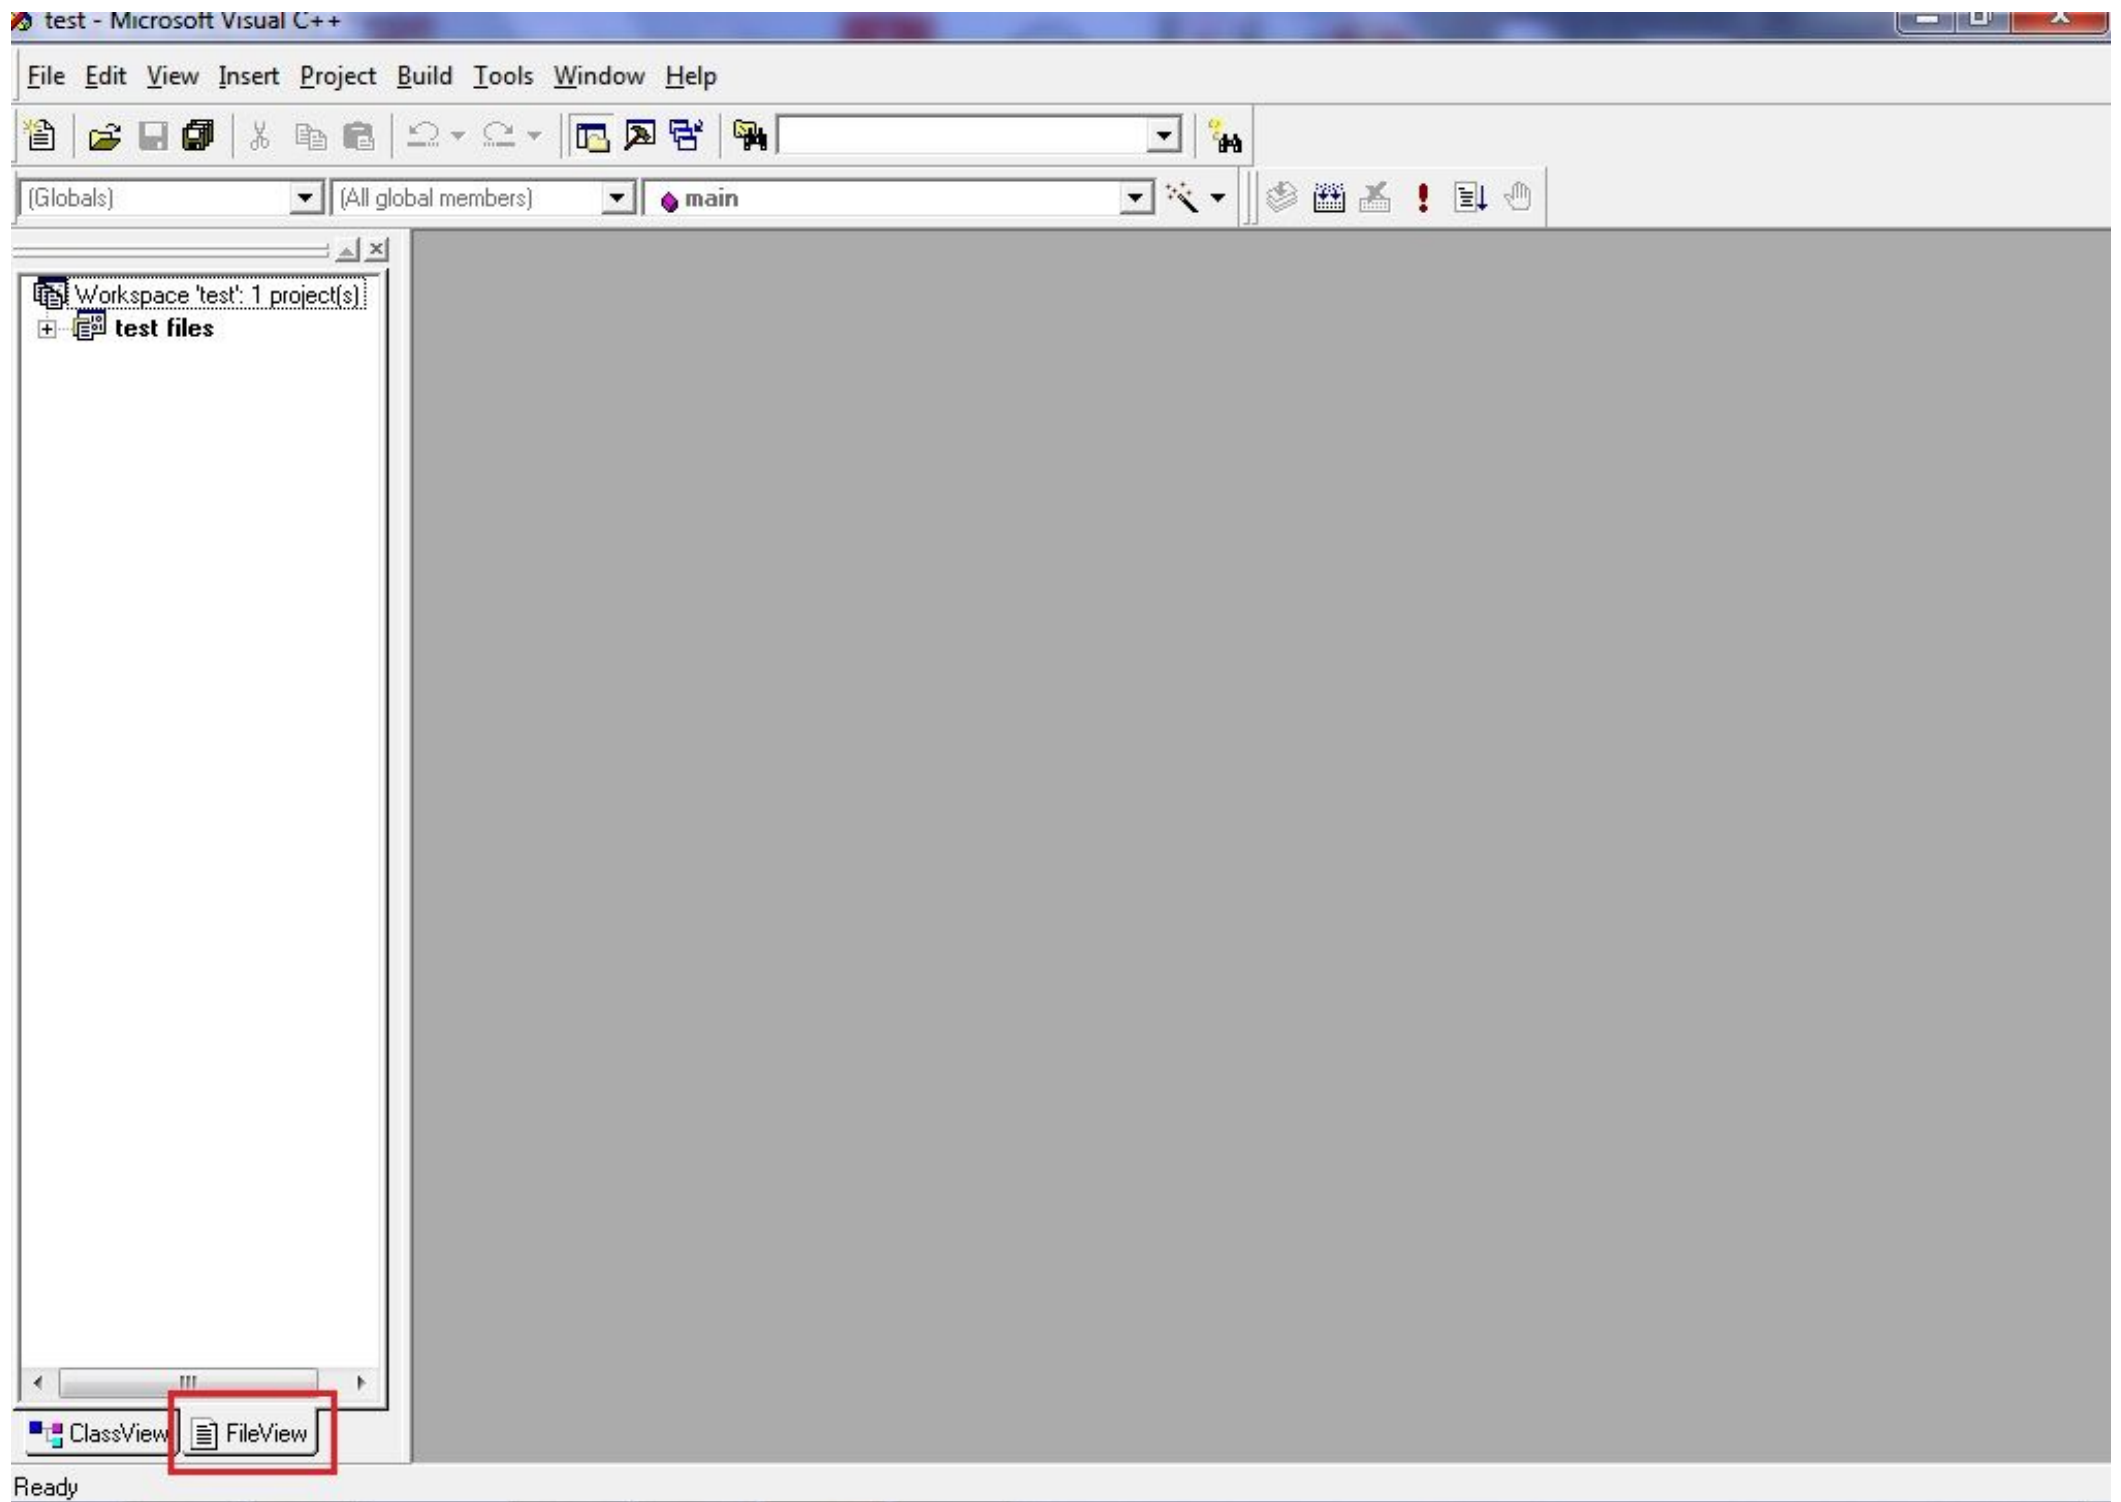

- + Simple Win32 console application.
- + Prints "Hello, World!" to the console and then exits.

Main: test.cpp  
Precompiled Header: Stdafx.h and Stdafx.cpp

Project Directory:  
C:\WINDOWS\SYSTEM32\test
